

SITE OPERATIONS · BUILT IN GUWAHATI

Run your sites. Not your phone.

Attendance · Materials · Daily logs · Reports — one app.

FREE during launch beta

No card. Start today. Your data stays yours.

Storey Infra · Guwahati, Assam · For NE-India contractors

The problem

— *that every contractor knows too well*

Workers, supervisors and material — spread across phones, paper, Excel.

By the time you reconcile, the day is over and the cement is gone.

"Where did the 50 bags go?"

Issued to the wrong supervisor, transferred to the wrong site, or just nobody wrote it down.

Monthly closing takes 4-5 days.

Attendance from supervisors, expenses from foremen, material from store keeper — all on WhatsApp, all manual.

ERPs that took 6 months to set up.

And broke in Assamese on flaky 4G the moment your supervisor left.

"I just want to know how many people showed up today and how much cement I have left. Why is this so hard?" — every contractor, ever.

What Storey does

— *five workflows your site already runs, but on paper*

1

Worker attendance

Supervisor marks who's present. Site manager confirms. Day done in 60 seconds.

2

Material in, issued, transferred

Cement, steel, sand — every bag tracked. With delivery photo + challan + tax invoice number.

3

Daily site logs with photos

Supervisor posts what happened today, with date-stamped photos as proof. Site manager confirms.

4

Sub-contractors + payments

Directory of all sub-contractors, what you paid, what's still due. Plus work orders and variation orders.

5

Site expenses with approval

Supervisor records, site manager approves. Reports straight to WhatsApp or Excel.

Works offline. Works on a 4-year-old phone. Works in patchy 4G.

Why Storey

— *different from the ERP / Tally / Excel mix*

Pay per SITE, not per user

Your whole team — site managers, supervisors, store keepers — uses Storey. No per-head charges. Competitors charge ₹12-15k per user per year. We don't.

Made for NE-India sites

Built in Guwahati for sites in Assam, Meghalaya, Nagaland. Works offline. Works on old phones. Plain English. (Hindi / Assamese coming as a toggle.)

Your data stays yours

Each company's data is private. We don't sell it, share across tenants, or use it for AI training. Export to Excel anytime.

FREE during launch beta

Pricing kicks in only when we ship the full Pro bundle — and even then it's per-site, not per-user, with 30-day notice.

How to start

— takes 3 minutes

1

Install Storey from Google Play

Search "Storey - Const Site Manager" or open:

play.google.com/store/apps/details?id=com.storeyinfra.app

2

Register your company

Tap "Register". Enter your firm name + your details. That's it — you're the contractor / admin.

3

Add your first site + 2-3 workers

Add a site name. Add a couple of workers to test attendance. Try the camera + daily log.

4

Invite your supervisor

Send an invite to your site supervisor's number. They sign up, you assign them to the site. Done.

Stuck? Just message me.

WhatsApp: +91 98640 66898

I'll walk you through it on a call or screen-share — usually 10 minutes is enough.
