

STOREY

Construction, organised.

How-To Guide · Step by Step

Every activity, for every role.

Contractor · Site Manager · Site Supervisor · Store Keeper

Works the same on the app and the website · help@storeyinfra.com

Contractor — How To

Setting up the company, sites and team.

1 Register your company

- 1 Open the app or **storeyinfra.com**.
- 2 On the sign-in screen tap **Register your company**.
- 3 Enter your name, company name, email and a password.
- 4 Tap **Create account** — you're in as the Contractor.

2 Add a construction site

- 1 Menu → **Sites** → tap **Add Site**.
- 2 Enter site name, location, start date and budget.
- 3 Set status (Planning / Active) → **Save**.

3 Add a worker

- 1 Menu → **Workers** → tap **Add Worker**.
- 2 Enter name, trade, daily wage and phone.
- 3 Choose Direct hire or Vendor (enter vendor name if vendor).
- 4 Assign the worker to a site.
- 5 ID proof: pick type, enter **only the last 4 digits** → **Add Worker**.

Privacy: never enter the full Aadhaar/PAN — last 4 digits only.

4 Invite a team member

- 1 Menu → **Team** → tap **Invite**.
- 2 Enter their email, pick the role (Site Manager / Supervisor / Store Keeper).
- 3 Assign the site(s) they will handle.
- 4 Send — they get an **invite code** to join with.

5 Set a budget line

- 1 Menu → **Reports** → **Budget vs Actual** tab.
- 2 Pick the site and month → tap **Add budget line**.
- 3 Choose a material, enter planned quantity and cost → **Save**.

Why: budget lines power the variance report — planned vs actually spent.

Contractor — How To

Day-to-day records, expenses and reports.

6 Mark daily attendance

- 1 Menu → **Attendance**. Pick the site and date.
- 2 Tap each worker to cycle: Present → Absent → Half-day → Paid-leave.
- 3 Use **Mark all present** to speed things up, then fix exceptions.
- 4 Tap **Save**.

7 Record a material receipt

- 1 Menu → **Receipts** → **Record receipt**.
- 2 Pick site and material; enter quantity, supplier and unit cost.
- 3 **Save** — inventory updates automatically.

8 Transfer materials between sites

- 1 Menu → **Transfers** → **New transfer**.
- 2 Choose From-site, To-site, material and quantity → **Save**.
- 3 Stock drops at the source and rises at the destination.

9 Add a site expense

- 1 Menu → **Expenses** → **Add Expense**.
- 2 Pick site, date, category (Fuel, Transport, Rental...), amount.
- 3 Add who paid and a note → **Add Expense**.

10 Approve or reject an expense

- 1 Menu → **Expenses**. Set Status filter to **Pending**.
- 2 Review amount, category and note.
- 3 Tap **Approve** or **Reject**.

Only approved expenses count in reports and total site spend.

11 Generate & print a report

- 1 Menu → **Reports**. Pick a tab — Attendance & Pay, Site Report, Materials, Budget.
- 2 Set the date range and site filters.
- 3 Tap **Print** → choose a printer, or **Save as PDF** to share.

Site Manager — How To

Running your assigned sites — workers, materials, expense approvals.

1 Add a worker to your site

- 1 Menu → **Workers** → **Add Worker**.
- 2 Fill name, trade, daily wage; assign to your site.
- 3 ID proof — last 4 digits only → **Add Worker**.

2 Mark attendance

- 1 Menu → **Attendance**. Pick site and date.
- 2 Tap each worker to set status → **Save**.

3 Write a daily log

- 1 Menu → **Daily Logs** → **New log**.
- 2 Enter date, workers present, weather, work done and issues → **Save**.

4 Record receipts & transfers

- 1 **Receipts** → record incoming materials with cost.
- 2 **Transfers** → move stock to/from another site.
- 3 **Equipment** → register machines and maintenance.

5 Add an expense

- 1 Menu → **Expenses** → **Add Expense**.
- 2 Enter site, date, category, amount, note → **Add Expense**.

6 Approve a Supervisor's expense

- 1 Menu → **Expenses** → filter Status = **Pending**.
- 2 Check the entry, then tap **Approve** or **Reject**.

Do this daily so reports stay accurate.

Site Supervisor — How To

Your on-ground daily tasks.

1 Mark daily attendance (every morning)

- 1 Menu → **Attendance**. Today's date is selected.
- 2 Tap each worker to cycle through P / A / ½ / PL.
- 3 Tap **Mark all present** first if most are in, then fix the rest.
- 4 Tap **Save** before leaving the screen.

2 Write the daily log (every evening)

- 1 Menu → **Daily Logs** → **New log**.
- 2 Enter how many workers were present.
- 3 Write what work was done, the weather, and any issues or delays.
- 4 Tap **Save**.

3 Raise a site expense (when cash is spent)

- 1 Menu → **Expenses** → **Add Expense**.
- 2 Pick the site and date.
- 3 Choose a category — Fuel, Transport, Food, Repairs, etc.
- 4 Enter the amount, who paid, and a short note.
- 5 Tap **Add Expense** — it goes to your Site Manager as **Pending**.

Do it immediately: log the expense when the money is spent, not later — small spends get forgotten.

4 Add a worker

- 1 Menu → **Workers** → **Add Worker**.
- 2 Enter name, trade, daily wage; assign to the site → **Add Worker**.

Store Keeper — How To

Keeping materials and equipment accurate.

1 Add a material to inventory

- 1 Menu → **Inventory** → **Add Material**.
- 2 Enter name, unit (bag, ton, cft...), opening stock and reorder level.
- 3 Set the unit cost → **Save**.

2 Record a material receipt (GRN)

- 1 Menu → **Receipts** → **Record receipt**.
- 2 Pick the site and material.
- 3 Enter quantity received, supplier name and unit cost.
- 4 Tap **Save** — stock rises automatically.

Same-day entry: record receipts the day goods arrive so stock always matches reality.

3 Transfer materials to another site

- 1 Menu → **Transfers** → **New transfer**.
- 2 Choose From-site, To-site, the material and quantity.
- 3 Tap **Save** — both sites' stock update together.

4 Add equipment / an asset

- 1 Menu → **Equipment** → **Add Equipment**.
- 2 Enter name, type, and the site it's at.
- 3 Record assignment and any maintenance notes → **Save**.

5 Check stock levels

- 1 Menu → **Inventory** — see live quantity for every material.
- 2 Items at or below the reorder level need restocking — raise it with your Site Manager.
- 3 Tap a material to see its full receipt/transfer history (ledger).

Daily Rhythm

If everyone does their bit each day, the reports take care of themselves.

Site Supervisor — every day

- 1 **Morning:** mark attendance for all workers.
- 2 **Through the day:** raise expenses as cash is spent.
- 3 **Evening:** write the daily log.

Store Keeper — as it happens

- 1 Record every material receipt the day it arrives.
- 2 Log transfers immediately so both sites stay correct.
- 3 Watch reorder levels; flag low stock early.

Site Manager — every day

- 1 Clear all **Pending** expenses — Approve or Reject.
- 2 Check attendance was marked for each site.

Contractor — weekly

- 1 Open **Reports** → **Site Report** for each site — review total spend.
- 2 Check **Budget vs Actual** — catch overspend early.
- 3 Print or PDF the reports you need to keep.

Stuck? On the sign-in screen tap "Need help signing in?", or email help@storeyinfra.com — we reply within one business day.
